

### PLASTICS, RUBBERS, FOAMS

Titan Waterjet's 6' X 20' abrasive waterjet can cut a wide selection of materials for industry and beyond. Some materials may be cut easily and quickly using water-only waterjet. In addition to our waterjet services, we also offer a full arsenal of design and fabrication services to assist in component and product development.

### MATERIALS

Lexan, acrylic, Delrin, polyethylene, composites, laminates, elastomers, foams and more.
