

SIGNAGE AND DESIGN

Titan Waterjet's 6' X 20' abrasive waterjet can create a vast array of sign components and finished products. In addition to our waterjet services, we also offer a full arsenal of design and fabrication services. We can create custom signs for interior and exterior using your designs or in-house from logos, sketches, etc.

powder-coated interior wall-mount sign

3/8" stainless steel wall-mount lettering

MATERIALS

Sign materials are fairly limitless. Metals, woods, acrylic, polycarbonate, granite, limestone, sign foam, sintra, urethane, glass, laminates, vinyl and more.

1" mahogany custom letters for letterpress printing
